# DUAL PROFILING BEDS

All beds within the Royale Reliqua range are available in dual profiling style. Our dual beds offer the independence of a single bed whilst maintaining the advantage and appearance of a double bed. Complete Versatility can be achieved throughout the range including options on mattresses and profiling /static base combinations. The full dual range is available in 4'6", 5'0" and 6'0" width options.

There are two design options for the dual bed available:

## **Complete Dual**

Dual beds are made like this unless otherwise notified. One large surround (split in two for ease of installation) is joined with built-in joiner. Allows mattresses to be close together and overall bed width is not increased. Bed cannot be split into two and used separately.

## **Detachable Dual**

Two separate complete bases are joined together either with U-clips or built-in joiners. Allows beds to be separated and used individually if required. Overall bed width increased by two inches so for example a Detachable 5'0" dual bed will have a finish of 5'2" overall width. A Detachable Dual bed will have a small gap of 2 inches/50mm between mattresses.

## Kensington Luxury Pocket Memory

The Kensington luxury mattress combines a luxury layer of memory foam over a pocket sprung unit providing support whilst simultaneously moulding to your body shape.

- Luxury 50mm memory foam layer over pocket sprung
- Firmness: Medium Soft
- Medium Firm option available by zoning
- Great support and comfort
- Mattress depth: 8.5" / 215mm uncompressed (guild only)
- Bespoke, non-standard sizes available
- Available with massage option

**Sizes** 2'3", 2'6", 3'0", 3'6", 4'0", 4'6", 5'0", 6'0"

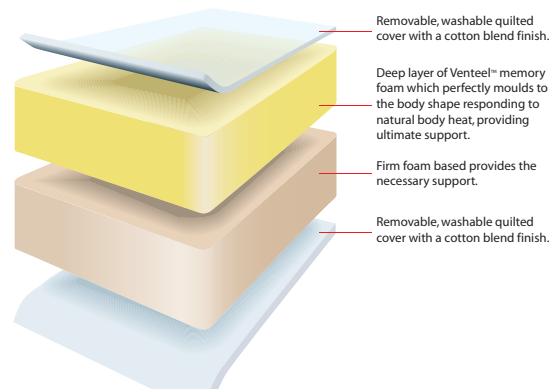

## Windsor Standard Memory Foam

The Windsor memory foam combines a layer of memory foam above a supportive firm foam base, giving plenty of support and comfort.

- 25mm memory foam layer on supportive foam base
- Firmness: Firm
- Mattress depth: 7.5" / 190mm uncompressed (guild only)
- Bespoke, non-standard sizes available

## ZONING

All mattresses can be zoned, both pocket sprung and memory foam. Edge zoning is the most popular type; the outside edge of mattress is firmed making it easier for user to transfer from and to bed whilst leaving the centre of mattress softer for sleeping.

## WATERPROOF MATTRESSES

We offer two choices of waterproof covers. Both manufactured in breathable, anti-bacterial material.

### Zipped – On

- Fast and easy to fit and remove from mattress
- Available for all mattress sizes

### Sewn – On

- Sewn on cover non – removable
- Available for all mattress sizes

## MASSAGE MATTRESSES

The multi-massage™ system gently vibrates over the whole surface of the mattress, creating a soothing relaxing effect.

Benefits include tension relief, boosted circulation and muscle relaxation.

The 5 point system is adjusted by the handset providing any combination of wave patterns and active zones. Massage is available on the Windsor, Balmoral and Kensington memory foam mattresses, in all sizes.
